To Whom It May Concern,

I am pleased to write this letter of recommendation for Rupal Jain, who has served as a facilitator and mentor with our UArizona Girls Who Code Club throughout the 2023-2024 academic year. During her time with our organization, Rupal has demonstrated exceptional dedication, skill, and passion for empowering young women in computer science.

As a member of the facilitator team, Rupal was reliable, adaptable, and demonstrated natural leadership skills among her peers. She supervised semester-long projects for a number of students and stepped in as needed to ensure timely progress and successful completion. Furthermore, Rupal always welcomed my feedback and applied it thoughtfully to further excel in her role.

Rupal brought a wealth of knowledge and enthusiasm to our club. I admire her unique ability to break down complex programming concepts and present them in an engaging and accessible manner. Her culturally responsive teaching style fostered a supportive and inclusive environment, encouraging students of all skill levels to excel.

Her commitment to promoting diversity and inclusion in tech is truly inspiring. As a passionate advocate for the mission of Girls Who Code, Rupal motivates young women to pursue careers in STEM fields, creating a positive and empowering environment for all participants.

Overall, Rupal Jain has made a profound impact on our organization and the students she has mentored. I highly recommend her for any position or opportunity she seeks. If you have any further questions or require additional information, do not hesitate to contact me by email at sumurphy@arizona.edu.

Sincerely,

Dr. Stephanie Murphy

Faculty Supervisor, UArizona Girls Who Code Club
Associate Professor, UArizona Southwest Institute for Research on Women
Director, UArizona Women in Science and Engineering Program
