RECOMMENDATION LETTER FOR: **RUPAL JAIN**

We have been very thankful to have Rupal Jain working with us over the summer as a Software Engineer. She's played a very important role in the development of a web, cloud, and container-based SaaS platform.

Rupal is a dedicated, driven, and creative problem solver. She takes direction very well, without requiring micromanagement. Wherever she needs to pick up a new skill to fulfil a task, she's happy and willing to do so. She is also a joy to work with and a great team player.

Rupal will be an asset to any team, and I'm glad to recommend her.

Best Regards,

Damilare D. Fagbemi
